**U.S. Market Composite:** *Eventide's U.S. Markets Composite seeks long-term capital appreciation by investing in primarily in equities of companies identified as having strong fundamentals, creating value for stakeholders (customers, employees, supply chain, community, environment and society) while seeking to limit tracking error to the Bloomberg U.S. 3000 Total Return Index. Key risks include values-based investing risk, market risk, liquidity risk, quantitative portfolio risk, securities risk, equity capitalization size risks and sector risk, each of which may result in the loss of principal, higher volatility relative to the broader market and underperformance relative to the benchmark. The U.S. Market composite is compared against the Bloomberg U.S. 3000 Total Return. The U.S. Market composite was created in August 2024 and inceptioned on August 30, 2024.*

Eventide Asset Management LLC ("Eventide") is a registered investment advisor with the United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions, limited distribution pooled fund descriptions, and broad distribution pooled funds are available upon request.

Eventide claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Eventide has been independently verified for the periods January 1, 2017 through December 31, 2023. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 0.5%. The model fee was calculated by reducing the gross returns by the highest tier of the composite fee schedule in effect for the respective period. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is tiered at: first \$25mil 0.50%, next \$75mil 0.40%, 0.30% on amounts in excess of \$100mil.
